A little more information.

Every week the contestants will have runways or challenges that will be showcased live every Wednesday. Information for the challenges will be provided a week BEFORE the show date. Each week contestants still in the competition get an opportunity to perform a number of their choosing for tips that is not judged. - After contestant performances, there will be allotted time for contestants to prepare their runway looks before their judged performance. Contestants will free model their runway looks (To be Judged). The Top 3 contestants of every night will be eligible for a weekly prize, while the bottom 3 will be subjected to the elimination process. The contestants who fall on to the bottom two, as determined by a cumulative score by the judges, will lip-sync to that week’s assigned song. Lips-ync challenge information will be given in advance.
